REKTOL ZDDPOWER

This concentrate contains $\approx 31,000$ mg / kg zinc (\approx ZDDP). Provides additional wear protection in the running in time of large-volume vintage US-V8, especially flat-head engines. Simply add to the engine oil = 300ml ZDDPower in 4L to 6L engine oil. Attention: This additive is only suitable for short-term use (approx. 30 minutes run-in time). Immediately after the start-up phase, remove the oil ZDDPower mixture from the engine and fill with the original operating oil.
